PROFESSIONAL SUMMARY

Resourceful Web Developer with strong skills in React, TailwindCSS and responsive web design. Proven ability to translate ideas into real world products through clean, reusable code and clear communication with clients and collaborators. Passionate about building users first interfaces that work seamlessly across devices and browsers. Eager to contribute to your team and grow through fast paced, high impact projects.

TECH SKILLS

- Languages and Frameworks:
 - HTML5, CSS3 and JavaScript (ES6+).
 - Reactjs
- Responsiveness:
 - TailwindCSS, flexbox and Grid.
- Core Skills:
 - UI architecture, reusable components, design systems.
 - Version Control (Git, GitHub)
 - Responsive and Mobile first design.
 - Cross-Browser Testing
 - Debugging and Code Review
 - Clear Client Communication
 - API integration and dynamic state management (React Hooks)
- Product Familiarity and Tools:
 - No-code/low-code tools like Framer
 - AI concept implementation (prompt design, UI scaffolding for AI-powered previews)
 - Figma, Vite and VS Code

KEY PROJECT

Moodulo — Productivity and Mood Tracking App

Designing and building a mobile first task manager with modular React components for tasks, status and CRUD actions. Uses React, custom hooks, reusable components, and JSON Server backend to create a real-world CRUD operations. Implementing responsive layouts with TailwindCSS, ensuring a seamless experience across devices. The project demonstrates clean component structure, real world problem solving, and attention to UX. Focused on clean UI architecture and user engagement. Source code: <https://github.com/Program-doctor/Moodulo>

WORK EXPERIENCE

2023 - Present

Upwork

- Freelance Frontend Developer
- Designed and developed responsive websites using React and TailwindCSS improving client engagement and usability.
 - Collaborated with designers and stakeholders to turn Figma wireframes into functional components.
 - Managed project updates via GitHub and ensured pixel perfect UI across browsers.

2021 - Present

SuperProf and Private Clients

- Math and Tech Tutor (Remote)
- Teach students core programming concepts including HTML, CSS, JavaScript, Reactjs and Python basics.
 - Designed hands on demos to teach web development (HTML, CSS, JS, Git) with strong emphasis on logic, structure and visual feedback.
 - Use real projects (like my weather app: <https://splendid-pavlova-2335ff.netlify.app/>) to demonstrate practical applications.
 - Adapt lessons to students' learning pace and problem-solving skills.

EDUCATION

2023

University of Uyo, Nigeria
BSc. Mathematics

2023

SheCodes Africa
React Workshop

2024

African Agility AI Internship
Artificial Intelligence

TOOLS

VS Code · Git and GitHub · Figma · Trello · Chrome DevTools

LET'S BUILD SOMETHING TOGETHER

I am ready to bring my frontend skills, product mindset and builder energy to a fast moving team. Let's create something users will love.
